

## Double Sided Polyimide Tape

## DC-B Series

### General Description

Double sided polyimide tape is coated on both sides with silicone adhesives. It has superior dielectric strength, high temperature & chemical resistance. An excellent choice for high temperature masking and electrical insulation.

### Product Benefits

- Adhesive on both sides
- High Electrical Resistance
- High Temperature

### Technical Data

#### Technical Properties:

Backing	Polyimide Film
Adhesive	Silicone
Total Thickness	4 mils
Adhesion to Steel	25 oz/in.
Dielectric Strength V	6500 volts
Operating Temp	260C

#### NOTE:

1. When applying pressure sensitive adhesive films to any surface, be sure that the surface is free from oil or other surface contaminants such as powder, dust, or release agents. Adhesive performance should be carefully checked when used on substrates containing plasticizers.
2. Shelf life is one year from date of shipment when stored in a cool dry place below 76° F (24°C). Rolls should be stored on end.
3. The above values are "Typical Values" which have a nominal range about them and are not intended for specification purposes.
